

Branch Manager® Attachments

This is our receiver hitch that comes included with your purchase of a new Branch Manager Mini Grapple! Newer versions of our receiver hitch use less material for better ease of use.

Insert the round tube of the receiver hitch into the square opening underneath the hanger. Use the included snapper pin to secure it through the hanger.

Insert your receiver into the receiver tubing and secure it using a pin. You are now ready to hook up your chipper or trailer!

Don't forget to use the chain locks on the grapple hanger to secure your chipper or trailer!
